dispensing

Dispensette® S DIGITAL

Bottle-top dispenser with features that make dispensing safer and convenient

NEW:

EASY CALIBRATION TECHNIQUE
Calibration and adjustments are done within seconds. Volume selection with interior scalloped track enhances setting reproducibility.

New Discharge tube with recirculation valve.
Less force needed during dispensing especially for instruments with large volumes.

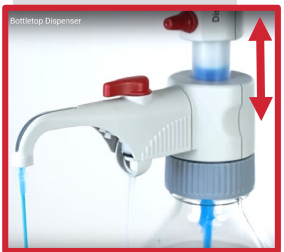

The new discharge tube with recirculation valve is easy to fasten.

New Large Viewport
Hinged screw cap pivots entirely so it doesn't get in the way while dispensing

All valves work without any additional sealing rings. That makes cleaning and preparation for autoclaving easier.

Exceptional volume readability

New
1 ml size digitale

Dispensette® S Digital the right choice for:

Dispensette® S supports a very wide range of applications for the dispensing of aggressive reagents – directly from the supply bottle: such as concentrated bases and acids like H_3PO_4 , H_2SO_4 (with certain exceptions such as HCl , HNO_3 , HF , etc.), saline solutions, and a variety of organic solvents.

Offered in 4 volumes to meet all your needs

Complete your installations
with a counter top stand

Volume	Increments
0.2-2 ml	0.01 ml
0.5-5 ml	0.02 ml
1-10 ml	0.05 ml
2.5-25 ml	0.1 ml

QR-MS200
